People should not smoke.

11

From my point of view, I think people should not smoke because smoking is an unhealthy habit. In the first place, smoking can damage every part of the body. Another reason is that, the serious health effects from smoking could leave you disfigured. Lastly, smoking can trigger disasters such as house fire.

To begin with, smoking can damage every part of the body. Cigarettes contain all kinds of carcinogens like nicotine, tar and carbon monoxide. These carcinogens can bring about terrible diseases such as cancer, malignant tumors and cardiovascular diseases.

Additionally, the serious health effects from smoking could leave you disfigured. Nicotine can leave you with

macular teeth. Also substances in cigarettes can cause hair loss and many other extreme problems.

Pursing this further, smoking can trigger disasters like house fires. If some unextinguished cigarettes were left on flammable items, it could cause a fire.

To summarize, I think people shouldn't smoke because smoking is an unhealthy habit, smoking can harm every part of

the body, the serious health <sup>hazards</sup> from it could leave you disfigured and it may trigger disasters such as house fire.

Being rich is a bad thing +1-

In my opinion, being rich is a bad thing.

First of all, being rich could make you an easy target for thieves or kidnappers which is very dangerous.

This could further lead to sleep problems since you will be fearful about the safety of your money and yourself.

Furthermore, you could have a lot of 'friends' who only became your friend because you're rich.

First of all, being rich could make you an easy target for thieves or kidnappers which is very dangerous. Being rich could attract criminals, as the criminals would want your money. Therefore, it could lead to a great deal of danger for you or your family if they try to steal <sup>the</sup> money or kidnap you or your family. For example, a kidnapper who has been eyeing your money could kidnap your kids and hurt them or even kill them.

This could further lead to sleep problems since you will be fearful about the safety of your money and yourself. Since you could be worried about yourself and your family's safety all day and night, leading to sleep problems or even anxiety. It might negatively influence your health. Furthermore, you could have a lot of mercenary friends. Some friends might be fake as they become friends with you for money. Hence, it would become a hurdle to find genuine friendship. In conclusion, being rich isn't as great as you might think. It could put you in danger, then lead to some serious health problems as you're constantly worried and lastly, it could be difficult to find a genuine friend.

Every family should have a pet

A-

From my point of view, I think every family should have a pet. After all, each family can be more harmonious. Also, we will become more responsible and patient from caring for our pets. Most importantly, if we all adopt homeless animals from SPCA, rather than buying from pets shops, can reduce the number of abandoned animals.

First of all, if each family owns a pet, this would be an opportunity to show love in the family. It is because when we take care of a pet together, such as walking the dog and playing with it. This is not only enjoyable but strengthens the family bond.

Pursuing this further we should be responsible for our pets from the moment of adoption. We cannot ignore it. We need to take care of it, such as by giving them a shower. These activities develop our patience and sense of responsibility.

Lastly, having a pet could help reduce the number of homeless animals rescued by SPCA. Rather than buying pet from pet shop, can reduce the number of pet abandoned.

To sum up, every family should own a pet at home because it will make the family relationship better and it can develop our patient and sense of responsibility too! Also, it <sup>could</sup> is effectively solve the problems of homeless animals.

Every family should get a computer at home

In my opinion, every family should get a  
computer at home because children can learn a great  
deal of knowledge from having a computer at  
home. Firstly, home computers can aid families to  
learn about the latest news at home. Furthermore,  
home computers would allow fathers and mothers  
to work at home more easily. Also, home computers  
make it easier for students to learn and do  
their homeworks..

Firstly, every family should get a computer  
at home because home computers can aid families  
to learn about the latest news at home. They  
can read news websites like Google news or Apple  
news on their home computers.

Additionally, home computers would allow  
fathers and mothers to work at home during the coronavirus more  
easily. Home computers can become a "Home Office" for them to  
work at home and send their work to their boss promptly.

Moreover, home computers make it easier for students  
to learn and do their homeworks. Home computers own possesses  
many accessories and functions such as English dictionaries  
and Microsoft Word that can aid students to finish their  
homework more effectively.

In conclusion, every family should get a computer  
at home because children can learn a great deal of  
knowledge, mothers and fathers can work at home easily  
during the coronavirus and helping students doing  
their more easier from having a computer at home.

Title: Every family should own a pet ✓

There are many families who have a pet. However,  
there are also many people who think keeping pets is very  
troublesome. In my opinion, every family should have a pet. ✓  
Firstly, it would make pet owners more responsible. Secondly, it  
can help the pet owners and their pets to stay healthier. Lastly,  
pets can make some families very happy hence be in better mood. ✓

Firstly, owning a pet would make pet owners more  
responsible. In the process of taking care of their pets,  
they learn to be responsible as they think about their ✓

pet's needs. For example, when their pets are sick, the pet owners should take it to the vet clinic. The pet is theirs and they are responsible for it. Therefore, the pet owners would become more responsible.

Secondly, owning a pet can help the pet owners and their pets to stay healthier. Some pets need to go out for a walk every day. They must exercise every day so that their pets will neither be too fat nor get sick easily. If pet owners take a walk for thirty minutes every day, they will walk for more than three hundred and fifty minutes a week. Then the pet owners and their pets would also exercise.

Lastly, owning a pet can make some families very happy hence be in better mood. This is because the pet owners always play with their pets. For example, they could always watch the TV and play hide and seek together. Some pets can even talk. It is amazing! Some pets are funny too. This will also make the pet owners feel less lonely even when they are at home alone.

In conclusion, every family should own a pet because it would make pet owners more responsible, can help the pet owners and pets stay healthier and make some families very happy hence be in better mood.

Student should have Pocket Money

In my opinion, I think <sup>students</sup> should have pocket money.

The reasons are if students have pocket money, they can buy snacks after school. Students will also learn about the importance of money, and learn how to save money.

Most students feel hungry after school, even if they have already had lunch in the afternoon. So if they had pocket money, they can use it to buy snacks. Also, they will go out with friends, then they can buy food and things using this money.

Another reason is having pocket money can help students to understand the importance of money. It is important for children to understand the importance of money from an early age.

Having to manage their own pocket money, children will then

learn to better value money. If we want children to understand the importance of money, we need them to make effort. For example, we can let them to do house work in exchange for pocket money. This would <sup>guide</sup> <sup>to</sup> let them understand money is not easy to obtain. When they grow up, they would not spend money indiscriminately, because they already learnt the importance of money from when they were younger.

Lastly, having pocket money gives them the opportunity to learn how to save money. Furthermore, if they can save up the pocket money that is not used up. Over the months, they can use this saved up money to buy things which ~~they~~ liked but did not have enough money to buy before. Also when they grow up, they could use this money to study or even repay their parents.

To sum it all up, every student should have pocket money. My arguments already explain that having pocket money can ensure that children would not feel hungry after school, understand the importance of money and learn how to save money.
